KOOTENAY MINES.

What is Being Done—A Marvellous Ly Rich District.

We quote the following from the Spokane *Review* of June 2nd. This paper has two correspondents in the Kootenay, Colvills and Okanagan districts:

VEINS OF MINERAL.

Within the past two years G. B. Wright, L. C. Dillman, J. C. Davenport, J. N. Squier and a number of other energetic and monied men have taken hold in the country, which is a sufficient guarantee that the mines are permanent and paying. James F. Wardner is now making his second visit to the country in a month, and it is not improbable but what one of the camps will get the benefit of his skill and business sagacity. To attempt a thorough and detailed description of the hundreds of claims located and prospected in Warm Springs district would only tire the reader and occupy too much space. For four miles in length, running northerly and southerly, and extending back on the mountains for at least three miles has this wonderful belt been traced and claimed. The formation is principally lime, through which run dykes of schist. The veins are all strong and well defined, in many instances having a bold and prominent outcrop, it only being necessary to scrape away the surface and begin sacking and shipping ore. The mountain on which is situated the mines of the Warm Springs district rises gradually from the shores of the lake. The principal belts of leads are found on the comparatively level benches that relieve the abruptness of the otherwise steep hills.

SWIFT MOUNTAIN STREAMS

course their way down to the lake furnishing ample clear, cool fresh water for all purposes. The property of the Pacific Bullion, Mining Company, of which Mr. L. C. Dillman of this city is manager, consisting of the Spokane and Trinkett lodes, is situated about one mile, by trail, from the steamboat landing. Their vein is well defined and strong and has been located along the outcrop, a distance of at least three miles. The silver-ized ore begins at the surface in paying quantity and extends down to unknown depth. As the continuity of the ledge on the surface is so great it is a demonstrated fact in mining that the bottom of those mines will never be reached. Quite a quantity of ore is mined and ready to ship, an amount easily augmented from the reserves in sight. These mines are now being worked by contract and doubtless will furnish vast quantities of shipping ore. On the north of the Pacific company's ground, and on the same vein is the Pine lode, the property of E. T. Steele of this city and E. J. Merrin. On this claim

PAY ORE

is exposed in several places along its course and it bids fair to become as valuable as any in the district. The Little Donald mine, the property of J. C. Davenport and others, is also located on this vein but south of the claims above described. Higher up the mountain and on another bench is the Sunlight group, owned by Dr. F. E Cooper. It is not at all improbable that a St. Louis mining company will purchase the doctor's interests in the near future. L. C. Dillman and J. N. Squires of Spokane Falls, both have valuable claims on the fissure, the former being the Ohio and the latter the Tiger. These gentlemen propose doing considerable development work this season, and will possibly ship considerable of their product. The Highland lode, owned by Rykert, Shockley & Olson, located on the northerly slope of Cedar Creek is an exceptionally fine appearing mine. It carries quite a body of coarse grained galena, averaging well in silver contents. The justly famed No. 1 mine is situated about four miles from the landing by trail, but

A WAGON ROAD

will soon be constructed between the points. This is the mine that was purchased for quite a sum last July by G. B. Wright when but a mere prospect. Mr. Wright, immediately, with his characteristic energy, began a course of systematic development and commenced shipping ore and now the No. 1 takes its place in the front ank of the bonanzas of the northwest. The ore assays from 60 ounces up into the thousands per ton in silver, about three tons per day is being shipped at present which averages about $300 per ton, which is a remarkably showing for a mine whose existence was scarcely known one short year ago. This mine has been stocked for $600,000 in Portland and undoubtedly will make a record for itself second to no other mine in the British possessions. Considering the short time that this lead has been in the possession of Mr. Wright and his associates, an astonishingly large amount of development work has been done and an immense quantity of high grade ore shipped. The lead has been traced and opened out for

HUNDREDS OF FEET

along the surface, a cross cut tunnel nearly 400 feet in length run to drain the mine, and an incline shaft sunk to quite a depth.

In the territory described there are scores of claims that are deserving of special mention, but it would require a page of this issue to give them special mention.

Coffee Creek empties into the lake four miles south of Ainsworth, or Warm Spring Landing. W. M. Hennessey, William Hanson and Pat McNeesse, who are backed in their operations by Mr. E. T. Steele, a capitalist and real estate dealer of Spokane Falls, have made several valuable discoveries about one mile from the lake and have done considerable development work. Quite a variety of ores have been opened up in a tunnel on the vein that has been run, consisting of galena, carbonates, copper, silver and gold. The hanging wall of this fissure is of black lime and the foot wall the form of schist that exists in the district named. These parties have three locations in the locality described called the Little Annie, Iron Silver, and Bonanza of the Lake.

NO. 1 COMPANY.

The No. 1 mine mentioned above belongs to a company incorporated in Portland, under the laws of Oregon. Mr. W. H. Prescott, vice-president of the Northern Pacific, is president of the company, and it numbers among its directors such men as W. F. Holcombe, vice president of the Union Pacific railroad; C. A. Dolph, brother of Senator Dolph; Judge Bellinger and Jonathan Bourne, Jr., one of Portland's wealthiest mining men, who recently sold the celebrated Cracker Creek mine for $1,000,000. This is only an evidence of the manner in which the Americans are getting possession of our rich mining regions near the boundary. Before the citizens of Victoria are aware that we own a valuable country down there, the entire district will be owned by Americans and be penetrated by American railroads, and the trade will flow through American channels. Cannot Victoria make some move to secure a portion of this?

The two towns of Ainsworth and Nelson are beginning to build up rapidly, but almost entirely by persons from the other side of the line. Three steamers are plying on the Kootenay Lake, entirely engaged in shipping ore out to Bonner's Ferry, and bringing passengers and goods in from Sand Point and Spokane Falls.

Children Cry for Pitcher's Castoria.

GENERAL DISPATCHES.

The Samoan Conference Separates—Dreadful Accident in City of Mexico.

Another Pacific Steamship Line—Russia and Servia—From Johnstown.

By Postal Telegraph.

Toronto, June 15.—The Jesuit Father Potin publishes a letter urging French-Canadians to take advantage of the cheap farmers' excursions organized by the Canadian Pacific Railway to Manitoba and the Northwest. While not desirous, he says, of doing anything to injure the cause of colonization and settlement in the province, he claims that the Northwest, if French-Canadian emigration to it be wisely encouraged, offers considerable advantages to those having at heart the welfare of such emigrants, the extension of their holy religion and their nationality. He says, they will remain Catholic and Canadians in the Northwest which they will not do if they go to the United States. They will bring strength to their fellow-countrymen already settled there, sustain them in fighting for their dearest interests and of their influence already considerably felt in the government, and public affairs generally, such influence will be made to increase from day to day and to become more salutary to Catholic institutions.

EXPLOSION.

Brockville, June 15.—At 7 o'clock this morning the works of the Canadian Powder Company, two miles east of here, blew up with terrific force. Fortunately the men had not gone to work and no lives were lost. A horse and several sheep were blown to atoms and several plate glass windows in the town were smashed. The works were owned by the Brockville Chemical Company. The cause of the explosion is unknown.

MERCIER'S DOINGS.

Montreal, June 15.—Premier Mercier and his cabinet arrived here to-day to consult local politicians as to the advisability of dissolving the House in the fall.

A FAITHLESS SWAIN.

Quebec, June 15—A gunner of "B" Battery has just deserted from the regiment on the eve of his marriage, leaving a young and blooming prospective bride in sore distress. It seems the wedding day had been fixed and the church calls were all duly made, rooms taken and furnished and the wedding guests invited, when the faithless swain turned traitor and ran away.

STRIKES.

London, June 15—All the stokers on the Antwerp steamers struck work yesterday.

Paris, June 15—The striking cabmen held a meeting to-day, at which M. Constans, Minister of the Interior, was present. The cabmen could not arrive at an agreement with the authorities and the strike will probably be a general one.

COLLISION.

London, June 15—The North German Lloyd steamer Trave, from Bremen to New York, yesterday morning sank the Russian schooner David in the North Sea. The Trave rescued the schooner's crew and landed them at Southampton.

SENSATION.

London, June 15—The arrest of Alexander Sullivan of Chicago for alleged complicity in the Cronin assassination, has created a profound sensation in Irish National circles.

ANOTHER COLLISION.

Liverpool, June 15—The British steamship Kanas was in collision this morning in the Mersey, with the British steamship Scotsia. Both were badly damaged and had to be docked. No one injured.

MILITARY ALLIANCE.

London, June 15—A special dispatch to the *Daily News* from Belgrade says: "M. Persiane, Minister of Russia to Servia, has proposed in the name of his government the immediate conclusion of a military convention between Russia and Servia. The Servian regents receive the proposition with favor."

ARMAGH'S SORROW.

Dublin, June 14—Business still remains at a standstill at Armagh. A girl named Margaret Huston, one of the victims of the railway accident, died to-day, making the total number of deaths resulting from the disaster 76. The whole town is in mourning and frequent funerals are taking place.

ENJOINING SECRECY.

Berlin, June 15—Delegates to the Samoan Conference have separated with mutual feelings of the most cordial nature. The negotiations have been in the highest degree satisfactory. Secrecy of the contents of the treaty is strictly enjoined, and must not be made public until the matter comes up before the Senate of the United States for confirmation. Notwithstanding it is generally known that further provisions of the treaty are all out, and certain to transpire in the interval; the attitude of the Senate towards the treaty is the only matter now remaining which is causing any anxiety.

ANOTHER PACIFIC STEAM SERVICE.

Los Angeles, Cal., June 14—J. B. Alexander, the representative of Spreckels Bros. Commercial Company at San Diego, said in an interview to-day: "The first steamer of the Peninsula & Oriental Company from Yokohama was billed to arrive at San Diego on the 15th of July. The citizens of San Diego were to be informed by cablegram when the steamer would leave China, but as yet no information to that effect has been received. There is no sure thing about the enterprise being carried out. There is nothing yet to lead one to invest money in San Diego on the strength that the steamers will land Oriental freight at that place. The voyage is much shorter, and the idea is good but there are many things that prevent the establishment of such a large enterprise, even after all preparations for carrying out the project are made. Baring Bros. & Co., of London, are largely interested in the Peninsula & Oriental, and have a large block of stock in the Atchison, Topeka & Santa Fe Co. They are working hard to carry out the scheme of receiving China freight at San Diego for this reason. The freight received at San Diego destined for the east will be loaded on the Santa Fe cars and hauled across the continent.

FROM JOHNSTOWN.

Johnstown, June 15.—This morning one hundred and fifty laborers were added to the number already engaged in removing wreckage from above the stone bridge. For a time the work progressed satisfactorily, but a heavy rain storm came up and work was discontinued.

CRONIN CASE.

Chicago, June 15.—The grand jury in the Cronin case resumed their work this morning by considering the matter of Sullivan's speculations and examined clerks of Moore and J. L. Lesler & Co.

THE SEATTLE FIRE.

Washington, June 15.—The Comptroller of the Currency received a telegram to-day from the cashier of the Puget Sound National Bank, of Seattle, saying the loss to the bank by the fire is nominal. All the vaults stood the test well. The bank is now doing business in temporary quarters.

SMALL-POX AND YELLOW FEVER.

New Orleans, June 14.—The news has just been brought here by a gentleman from Brazil, who says that small-pox and yellow fever are raging in a very violent form not alone in Rio Janeiro, but through all the states within 2,000 miles of that city. The death rate for three days at Santos was 70 per cent., and people who could do so were leaving in droves.

THE SAMOAN TREATY.

Washington, June 14.—The Berlin negotiations for the Samoan treaty are at an end, and despatches received at the State Department this afternoon state that the protocol was signed by all the commissioners to-day in Berlin. It is now understood that the agreement originally submitted to the State Department was found to be entirely satisfactory to the President, to Secretary Blaine and the rest of the Cabinet. State Department officials are not yet certain whether or not the Samoan agreement should be made public before the meeting of Congress, as a formal treaty precluding to international questions will have to be submitted to the Senate, but as a simple agreement the State Department has power to make public its provisions at its discretion.

ANOTHER TRANSCONTINENTAL LINE.

Pierre, Dak., June 15—S. G. Bills, of Dubuque, Iowa, and George M. Nix, of Sioux Falls, civil engineers, with a party, will start to survey a railroad through to the Pacific coast, probably touching at Minneosella in the Black Hills, making Pierre the initial point on the Missouri. Work on the survey will last some five months. The road is called the Midland & Pacific, and is strongly supposed to be backed by the Illinois Central.

OFFICER BURIED.

Vallejo, Cal., June 15.—Lieut. Frank Heath, one of the survivors of the United States steamer Vandalia, which was wrecked at Samoa, and who died here a few days ago, was buried with military and naval honors to-day.

DISHONEST OFFICIAL.

Los Angeles, June 15.—Frank Lautio, deputy county auditor, has just been indicted by the grand jury for presenting a fraudulent warrant on the city treasury.

MURDERER CAPTURED.

Tulare, Cal., June 15.—City Marshall Murray arrived in town this morning from the mountains south of here, where he captured Wm. W. Wrice, who is wanted in Lincoln, Ill., for the murder of a child some time ago. The sheriff of Lincoln is on his way here with the necessary papers.

OPIUM SEIZED.

San Francisco, June 15—Nine boxes of contraband opium were found this morning by a customs officer, in the furled sails of the steamer City of Sydney, which arrived from Hong Kong a few days ago. This is the second seizure made on the vessel.

AN ADIEL.

New York, June 15—Judge Anderson in the Court of Oyer and Terminer heard arguments to-day upon *habeas corpus* in the cases of Maroney and Macdonald; Assistant District Attorney Macdonald read a return to writs, including telegrams from Chicago and an affidavit made thereon by Detective Vongerichten, together with subsequent committment by the police magistrate. The answer of prisoners are a general denial of any complicity whatever in commission of the Cronin murder, and that their detention was illegal and claiming they were in New York on the day the crime was committed, concluding with offers of evidence in support of an *alibi*. The Judge took the papers and reserved decision.

CONSULS APPOINTED.

Washington, June 15—The President made the following appointments to-day: Wakefield R. Frye, of Maine, Consul General at Halifax; Joseph A. Leonard, Minnesota, Consul General at Shanghai; Levi W. Brown, Ohio, Consul at Glasgow.

MORE SEAMEN STRIKE.

New York, June 15—Discontented longshoremen of the National Steamship Company, who struck a few days ago but concluded to work on the company's terms, yesterday morning went out on another strike last night. Their places were filled this morning by one hundred non-union men. A large police force is on hand to prevent disturbance.

ANOTHER DREADFUL ACCIDENT.

Galveston, June 15—City of Mexico advices say the Merced Market roof fell in yesterday, burying nearly fifty persons. Soldiers are at work removing bodies. Flames in the wreckage are burning furiously this morning, having gained such headway that a heavy rain had but little effect in extinguishing them. Contractor McKnight says if he can keep fires burning at their present volume during the day and to-night the big roof will be entirely out of the way by to-morrow. Dynamiting was kept up through the night and this morning. Some of the explosions are so heavy that people in houses on Prospect Hill left them fearing they would fall. Already the bodies of eight dead people and a number of wounded have been taken out. The roof of the market which fell in to-day, in which building there were a large number of dealers and customers, hundreds were caught in the ruins and are still there. Many are reported to have been instantly crushed to death. Troops have been called out to assist in rescuing the survivors. Eight corpses have been recovered and fourteen wounded persons have been taken out.

STRIKES WITHOUT END.

Chicago, June 15—The Union Pacific engineers are threatening to strike as a result of a quarrel with Manager Baldwin.

THE PRESIDENT YACHTING.

Washington, June 15—The President, accompanied by Secretaries Blaine and Windom, left to-day for a trip down the Potomac on Mr. Wanamaker's yacht and will return on Monday.

ON THE WARPATH.

Washington, June 14—The Adjutant-General this morning received the following telegram from Assistant Adjutant-General Williams at Chicago: The following telegram has been received in consequence of a telegram dated yesterday, sent from Mora station, 25 miles from Mille Lacs reservation, to Governor Merriam that the Chippewas there had the night before begun driving out settlers and had killed and wounded six.

QUARRELING SAILORS.

Paris, June 15—The French and Italian navies in the Department of the Haute-Marne are quarreling among themselves. Troops have been sent to quell the disturbance.

President Van Horne.

President Van Horne, of the C. P. R. and party arrived at Vancouver on Friday evening. In addition to Mr. Van Horne, the party is composed of Mr. Shinder, a newly appointed director of the C. P. R.; Mr. P. A. Peterson, consulting engineer for the C. P. R.; Mr. M. S. Lowry, President of the St. Paul and Minneapolis Cable Street Car Company, and Hon. B. R. Langdon, a well-known railway contractor. The party will arrive in Victoria on Sunday evening, and after remaining a day or two will return east over the Northern Pacific, President Van Horne's private car being sent to Tacoma for that purpose.

TO THE TIMES ONLY.

B. C. Delegates to the General Assembly—New Atlantic Mail Line.

Politicians Beginning a Campaign in Quebec—The Royal City.

Special to The Times.]

Toronto, June 15—William O'Connor champion oarsmen, arrived here from San Francisco to-day. He will sail for England in about eight or ten days to row his race with Searle. Wallace Ross will be his trainer.

ANGLICAN SYNOD.

The Anglican Synod closed its session to-day. A resolution condemning the Jesuit Estate Act was passed without discussion.

A HEAVY HAILSTORM.

Montreal, June 15—Reports from Lachine say the hailstorm there last night was the heaviest ever seen, the hailstones being at least half an inch in diameter and accompanied by a strong wind.

A POLITICAL CONFLICT.

The Montreal Nationalists are unusually active and organizing political tours all over the province. This is looked upon as a sign of a political conflict at hand.

THE GENERAL ASSEMBLY.

Toronto, June 15—In the Presbyterian General Assembly yesterday a discussion on the mission fields of the Northwest took up the greatest part of the day. Rev. P. Mac. McLeod, formerly of the Central Presbyterian Church in this city, and now of Victoria, B. C, introduced Rev. T. Thompson and Rev. J. McCrea, delegates with himself from British Columbia. They were listened to with interest.

FROM OTTAWA.

Arrangements Made for the Fast Mail Service.

Ottawa, June 15—I learn on good authority that arrangements for the new fast mail steamship line on the Atlantic have practically been closed between Andersons and the government. Anderson says the new boats will be twenty knot boats, although not making that time in accomplishing the journey.

Mr. Chisholm, M. P., is getting stronger daily.

NEW WESTMINSTER.

A Sheriff Seizes a Butcher Shop and Cattle—Recovering.

Special to The Times.]

Yesterday afternoon Van Volkenburgh & Bros.' butcher shop, this city, and fifty head of cattle belonging to the firm were taken in charge by the sheriff.

Herbert Kirkland, who was stabbed by a Chinaman at Deas cannery on Thursday last, is fast recovering and will soon be at his post again.

70 MILES AN HOUR.

Mr. Van Horne's Special Train Makes Exceptionally Fast Time.

There are not many people who would care to travel over the C. P. R. between Winnipeg and Port Arthur at the rate of seventy miles an hour, but Mr. Van Horne and his guests whirled along at that speed last Thursday and Friday and they rather enjoyed the excitement of the ride. Mr. Van Horne was inspecting bridges en route and stops were made at short intervals, which gave the gentlemen time to regain their composure. On Friday morning at a station on this side of Rat Portage, Mr. Van Horne went up to the engineer, and looking greatly in earnest, asked:

"What's the matter with your engine?"

"Nothing, sir," replied the engineer.

"Well, then, what's the matter with you?"

"Nothing, sir."

"Why aren't you running then?"

"I thought I was running."

"Now," asked Mr. Van Horne, "how fast dare you run?"

"Just as fast, sir, as you dare ride," promptly replied the engineer.

Mr. Van Horne said no more, but returned to his car. There were no more complaints made about slow running again that day. The driver crowded on all the steam he possibly could and opened the throttle wide. The train tore along until the telegraph poles appeared like a solid board fence, and objects along the road appeared dim and uncertain. Trees, houses, men and wood piles, etc., were seen for an instant, flew past like shadows and were quickly swallowed up in the horizon. The party had scarcely yet settled down when the train pulled into the East Selkirk depot. Nearly seventy miles an hour were covered on that portion of the road. It was a novel experience for most of the gentlemen on board, but none of them appeared to feel as happy as Mr. Van Horne. Fast travelling is his special delight. He grows restless and impatient when riding in a slow train, and it is said when he gets in such a mood that he begins to calculate the possibility of increasing the maximum speed to one hundred miles an hour. However, he appeared well pleased with his ride on Friday.

DAY OF DAYS.

Reasons Why This the 15th of June Should be Celebrated.

"Do you know what day this is" asked Dr. Helmcken of a reporter this morning.

The reporter feeling sure of his position, according to the most reliable patent medicine almanac and Frank Campbell's corner, answered modestly that it was "Saturday."

"Do you know," said the doctor, "that this is the day of all days in British history, the day most to be reverenced wherever the Union Jack waves," said he as his patriotic blood thrilled in the contemplation of the splendid theme.

The reporter tried to think what day it was but could only remember that it was about this time of the month that Vancouver was burnt down.

"This," said the doctor breaking the suspense of the scribe, "is the day on which the Magna Charta was signed at Runnymede, and one which we should all commemorate"

We will celebrate the 15th of June if anything happens to the Queen's Birthday, suggested the reporter.

"Yes, that's so; but what I was going to say was, I was reading history to-day and it just struck me we had as much reason to celebrate this day as the American people to commemorate the declaration of independence. This is the great day on which the British people gained their independence."

The "wretched reporter," struck with the originality of the idea, hied him away to a friend, who has a cyclopedia, in order to consult the book. And sure enough on a lovely day in June, to-wit, the 15th of the month, in the year 1215, King John did solemnly sign and seal the great charter which established for all time the liberties of the English people.

Dr. Helmcken well says, "Why not celebrate our independence day?"

It was the day on which the world gained its independence.

Children Cry for Pitcher's Castoria.

SPORTS AND PASTIMES.

THE RING.

Tom Cleary is in training at the Victoria Gardens situated above the Gorge, while Clem Austin is getting in trim at Hanley's for the coming battle one week from to-day for $800, with two oz. gloves. Cleary undertakes to put Austin to sleep in ten rounds. The mill it is said will outside this province.

AMATEUR BALL TOSSERS.

The young Amity Club defeated a scratch six at the St. Louis College grounds this morning by a score of 45 to 36. Time of game, three hours. The following is the score:

YOUNG AMITY.		SCRATCH NINE	
C. Sylvester	10	Slade	5
H. Bothell	4	Copeland	7
T. Moody	9	Winger	2
C. Veasey	5	Gallor	7
C. Wilson	9	Whiting	1
Toast George	7	Calwell	3
Total	45	Total	36

HANLAN AND PETERSON.

Ed. Hanlan, the ex champion oarsman of the world, who has just returned from Australia, has a great deal more respect for the prowess of the Colonial oarsmen than when he left here a year and a half ago. While there he rowed four races and lost three. He was beaten first by Beach for the world's championship and $2500, and was beaten by him in 19:35 for three miles and 350 yards. Beach then retired in favor of Kemp, and he, too, beat Hanlan for $2500. Harry Searles, who was entirely unknown, defeated Kemp, and then Hanlan for $2500 and the championship. He beat Trickett, however, winning the same amount. Altogether since 1880 Hanlan has rowed twelve races in Australia, winning six and losing the same number. In conversation he said:—"I do not feel stale, as some have said, and I still believe I have my old-time speed. The only point where I am failing is in my endurance. I cannot row the distance that I used to, but am ready to make a match with any one living for one or two miles. I will never make another race for three miles unless I have a year or two's rest. I have been working too steadily. The result is that I enter a race feeling first class, but weaken when it comes to the last mile."

"Would you row Peterson three miles?"

"Well, yes. I will modify my statement that I would never row another three mile race. I am ready to make a match with any one on the Pacific coast."

BASEBALL CHALLENGE.

The James Bay baseball club of this city sent a challenge to the club at Wellington to play a game of baseball at Victoria on the 20th inst., or as soon as the ball grounds are placed in condition. Should the game be played in Wellington the James Bay boys want their expenses paid.

THE FAMOUS WRESTLER.

At the athletic entertainment to be given in Philharmonic Hall this evening the principal feature will be the wrestling match between Matada Sorakichi, the famous Japanese athlete, and Faulkner. Jimmy Hacker, the clever little boxer of the Amphion, will also try to win the $50 which Faulkner offers to any middleweight he fails to throw in twenty minutes. Cameron, it is expected, will be present to contend for the $50 offered by the "Jap" under the same conditions. During the evening Tom McCluskey and Jim McCann will spar; but it is the "Jap" most people will want to see. His manager is Mr. Frank Morely, formerly sporting editor of the New York *World*, and a rustler from away back.

AQUATIC.

The single sculling match between Richardson and Ratson, which was to have been rowed this afternoon, has been declared off.

GROUNDS OPENED.

The baseball grounds on the corner of Carr and Simcoe streets were opened to day by the Maple Leaf and James Bay nines. The members of the clubs assembled on the "corner" at two o'clock and headed by the Queen City Band marched to the new grounds accompanied by Mayor Grant, Mr. Thos. J. Burnes and others in a carriage. The first game in the new grounds was opened by Mayor Grant, President of St. Andrew's and Caledonian Society. His Worship occupied the pitcher's box and formally opened the game by throwing a straight ball which was caught by Mr. F. Wolfenden, President of the League. The game was in progress at latest accounts and a large number of spectators were present.

PERSONAL.

Items Telling of Movements of Well Known Persons.

S. P. Tuck, C. E, leaves for Comox on Monday.

Mr. Jas. Abrams, of Nanaimo, paid a flying visit to the city yesterday and returned home by the train this morning.

Oscar Hermann, of San Francisco, is at the Driard.

F. A. Kennedy and wife, of Portland, are visiting the city.

David E. Meson, of Charlottetown, P. E. I., is at the Oriental.

A. T. D. McElmon, Nanaimo, came down yesterday.

C. N. Hayes and wife and Capt. Lloyd, of Tacoma, are at the Oriental.

James A. Laidlaw, of New Westminster, was a passenger last night by the Islander.

E. W. Port, of the fish freezing company, Westminster, is spending a few days in the city.

R. W. Armstrong, registrar, New Westminster, is in the city.

Hon. Chas. A. Stevens and the Misses Stevens, of Ware, Mass., arrived in the city last evening.

W. B Higgins and wife went to Nanaimo yesterday, and returned to-day.

W. Gill, inspector of inland revenue, is making a tour of his "districts" on the mainland.

J. Bradley, Preventive officer at Nanaimo, has been obliged to return to the Harrison Hot Springs for the benefit of his health.

POLICE COURT.

John Xong, charged with endeavoring to persuade a seaman in Her Majesty's naval service to desert, was remanded till Monday to give him a chance to prove his good character.

Wm. Morrisey, charged with stealing a keg of beer from the California saloon, pleaded guilty. Imprisonment for one month with hard labor.

Charles Ward, who was charged as an accomplice, was discharged, as it was proved he had nothing to do with the affair. The prisoner seems to have been very fond of beer, as he packed the ten gallon keg from Johnson street to Chatham street.

Important Visit.

Col. Fred Crocker and wife will arrive in this city in a few days. The Col. is vice-president of the Southern Pacific Railway and recently negotiated in the Esquimalt & Nanaimo Railway. It is whispered in railroad circles here that his visit is for more than an inspection of the coal mines adjacent to Nanaimo and that a conference will take place with the directors of the E. & N. Railway in this city as to the advisability of extending the Island Railway north to Comox and south to Beechy Bay.

Mr J. B. Leighton, of Sayoos, says the grasshoppers were so thick in some places in the interior that they actually filled up the irrigation drains. The water had to be turned off until the drains were cleared off the hoppers. Every green thing was devoured.

THE DAILY TIMES

THE LAND EXCHANGE.

We are now told by the organ of the provincial administration that the government never intended to make an exchange of lands with the Dominion, on the authority of the resolution of the assembly of 1887. This is rather thin and does not agree with the editorial columns of the Colonist. On the 1st of this month that paper contained the following:

"We are decidedly of the opinion that if the Government can carry out the unanimous resolution of the legislative assembly and effect that exchange, it will do the whole province a very great service."

Has not the organ been advocating day in and out an immediate settlement of the matter so as to prevent disputes and assist development? We are further assured by the organ that the members of the government know the extent of their powers a great deal too well to make any claim to be empowered to make an exchange of land except under authority of a special statute. It is refreshing to learn that the members of the government are becoming educated as to their powers. Their past history does not indicate any such knowledge; in fact the stock argument advanced by their supporters in the legislature, when asked by the opposition to condemn any of the numerous illegal acts of the government, has been that the members of the administration sinned through ignorance and not with criminal intent.

The present editor of the Colonist is a gentleman with little knowledge of the past acts of the government he is supporting, and is perhaps excusable on the same plea, but we ask him to read up the history of the grant of 6000 acres of land on Burrard Inlet to the Canadian Pacific Railway Co. four short years ago. He will not find a special statute in existence to-day making that grant, but he will find simply a resolution of the Assembly carried upon division. Some of this land for which the Province never obtained one cent, has since been sold for $500 per foot front. Why did not the people get this increased value instead of others? Does that display competency and honesty? A government that will set aside statute law and override the constitution in one instance will not hesitate to do so again if they think that they can afford to induce the Legislature to endorse their conduct. As soon as the editor has studied up the 6,000 acre grant, we will give him other subjects for serious thought. The editor seems very prone to lecture others as to the manner in which they should refer to the members of the Government. Would it not be more becoming if he, a comparative stranger, should learn before assuming to instruct? Our experience leads us to believe that it is useless to fight scorpions with a light cane.

MANGANESE BRONZE PROPELLERS.

When it was announced a week or so ago that the Calliope owed her escape, in a measure, to the fact that she had a manganese bronze propeller a smile of incredulity went round among the unscientific. Nevertheless that there is an advantage in propellers of this composition is indisputable, as experiments have shown. The Peninsular and Oriental Company, by the substitution of manganese blades in the place of gun metal, and steel blades, which were formerly used on their steamers, have secured a gain in speed of one quarter of a knot per hour, and a saving of between eight and nine tons of coal per day. In the case of the Australia and Zealandia, two steamships running out of San Francisco, the substitution of manganese bronze blades of the same diameter and pitch as those made of other material, raised the speed of the steamers one knot an hour and lessening the length of the voyage by two days. This gain in speed and saving of fuel has been secured by every steamship which has adopted the bronze manganese screw, and now it is only a matter of time when propellors of this material will be in general use. The probable cause of the superiority of the bronze screw propellor lies in the fact that the transverse strength of the metal is stated to be about equal to that of the best cast steel. Hence, as compared with gun metal, a great reduction can be effected in the thickness of the blades, which therefore become finer and sharper. There is also a peculiar smoothness of surface, producing a diminution of skin friction, especially important where high rates of speed are employed. A velocity of forty or fifty miles per hour in the extremities of the blades gives value to everything which reduces the unproductive resistance. The power thus saved is utilized in giving greater speed to the vessel. Steel castings for propeller blades are very rough, and are always out of true pitch, owing to the warping which they undergo in the annealing furnace; whereas the manganese bronze blades are almost mathematically true, as shown when tested by the pitchometer. Now, when we understand that the bronze screw gives a vessel nearly a mile an hour greater speed than the steel screw, and that the Calliope's rate of progress through the storm was half a mile per hour, we perceive at once the advantage of the former and we become impressed with the fact that trifles may successfully interpose to prevent a catastrophe as well as to cause one.

WOMEN IN POLITICS.

Lord SALISBURY, it is said, argues great things from the fact that women are identifying themselves with politics and in an address to the Primrose League he declared it to be one of the "happiest innovations" of the nineteenth century. Lord SALISBURY is a very great man and his opinions are entitled to great respect, but some how when we consider the nature of politics and the nature of women, we look upon such an innovation as one to be deplored. Heaven forbid that we should ever become so narrow in our prejudices as to bar woman whatever she will. If she wants to dabble in the "filthy pool" let her, but we think it would be better for her and better for the world that she fight shy of a peculiarly masculine function. The ground has been gone over hundreds of times why women may not participate in certain phases which constitute the make up of society hitherto occupied by men and for which owing to the delicate relations involved, are fitted for men only and we need not rehearse them here. If politics could be handled without passion and with a disinterestedness never exceeding the bounds of integrity, we might reconcile ourselves to female office holders, stump speakers, etc. All experience, however, goes to show that this cannot be done. Until men first reform themselves in the administration of political affairs, it is useless to expect that the addition of the sex will contribute to political purification. If in the evolution of things women gradually come into active participation of the affairs of state there can be no objection, for such would be normal, but to identify her with such conditions by means of an innovation must lead to pernicious results and lower her standard as the exemplar of refinement and purity. Yet, as we said in the outset, if such be the will of the women, let them go ahead. If the women can stand it the men certainly ought to be able to do so, but we doubt whether political, social and moral conditions would be materially improved by the injection of femininity into the affairs of state.

A JOURNALISTIC CATO.

We point with pride and edification to the Colonist's latest manifesto on the irrigation question, and we hope that its mainland contemporaries will quote largely. During the progress of the Punic war and at a time when it seemed as if Rome must succumb to the vigor and resources of her Carthaginian rival, honest old Cato invariably closed his speeches with the adjuration that "Carthage must be destroyed." In discussing public questions, those which the Colonist has artfully dodged in time past, must we have Cato like the addenda, "JOHN ROBSON did not inspire the foregoing." Of course we believe the Colonist. Circumstances bear it out in the truth of its somewhat plaintive denial of Robsonian inspiration. As a journal the Colonist is bound to have convictions, aye, for that matter, imagination. The government, however, has no convictions that we ever heard of, and as for an imagination it requires a vivid imagination to imagine anything imaginative issuing from the government. We may readily believe, therefore, that the Colonist is telling the truth when it disclaims inspiration on *all* public topics. The Colonist need not, therefore, in the future take up valuable space with a Catonian adjuration. There is circumstantial evidence of Colonistic veracity.

POLITENESS.

CÆSAR, dining out once, was given ointment by mistake to eat on his asparagus, and swallowed the nauseous stuff without a grimace, and subsequently he rebuked his friends for their failure to imitate him and for grumbling in the presence of their host. Some people will say that there is no analogy between this incident and the BURDETTE COUTTS dinner party, at which BOULANGER was the ointment which several guests refused to swallow, albeit at the same time the Prince of Wales was present and took his medicine straight. The particulars of the case are these: Baroness BURDETTE COUTTS gave a dinner, and in sending out the invitations neglected to mention who would be present. The guests arrived and it being discovered that Gen. BOULANGER was to be present, a terrible row occurred, several going home, among whom the lady whom BOULANGER had been delegated to take down to dinner. The Prince of Wales remained, however, and it is said took not only a polite but friendly interest in the exiled Frenchman. It certainly would not be pleasant to dine in the company of a person with whom you had a personal grudge, but as feeling in this instance must have been of a political rather than a personal character, the guests who flew off home were not merely impolite, they were boorish, and the Prince's action in the matter was a merited rebuke. The more we see of the Prince of Wales the better we like him. He is a man built after men's own hearts. He is a gentleman, and the courtesy he manifested for his host and her malodorous guest has earned him a warm spot in the hearts of real gentlemen. Long live the Prince of Wales!

THE PAPAL SUCCESSION.

The question of the Pope's successor has come up and among the various possible candidates Cardinal GIBBONS has been named. Viewing the Catholic Church apart from secular affairs, as it was primarily intended by the framers of the American polity, it makes little difference to the people of the United States who shall sit in the chair of St. PETER. Within recent years, however, the conflict of opinion which has come to pass between this religious organization, and the civil administration in the States, has completely altered the aspect of affairs, and as the issue presents some grave features, it is impossible for Americans to regard the papal succession with indifference, and it seems inseparable from concord that whoever the next Pope may be, he should thoroughly understand and appreciate the temper and genius of the people of this continent. Catholicism on this continent has its maximum still to reach. There is no reason why the Catholic church at the end of another century, nothing interposing to change the popular current of religious beliefs, should not number from fifty to seventy-five millions strong. There are now ten millions of what are called practical Catholics on this continent, not including Mexico, and it is estimated that there are about 5,000,000 more who are Catholics by birth, but who do not actively perform their religious obligations. These people, doubling on themselves every generation, it will be seen that the above figures are not an over estimate, and that there may be in fact a hundred millions of Catholics on this hemisphere at the end of another century. Clearly, therefore this continent not only has an interest in the papal succession, but it would seem imperative that whoever that successor is, he should have imbued, to some extent, the genius of the people. It is not too much to say indeed, that in view of the enormous development yet to come on the American continent, that it is here where the papal headquarters should and probably will be located.

EDITORIAL NOTES.

The Louisiana Lottery Company comes before the people of that state with an offer to assume the state debt of $12,000,000 for an extension of their license for fifty years. Incredible as it may seem, the proposition is seriously considered and probably will be accepted.

A unique idea has been evolved out of the fertile brain of the management of the San Francisco Examiner. A prize has been competed for by pupils of the public schools, which allows the successful pupil to take a trip to the Paris exposition at the expense of the paper. The winner was a young lady, May Ayres. When anything to gain popularity is undertaken, expense is a secondary consideration with the Examiner.

A new constitutional point has cropped up between Ontario and the Dominion, which will be submitted to a friendly suit before the Privy Council. The province contends that the power to pardon for offences committed against the laws of the province should lie with the Lieut.-Governor in Council, and to determine the point a case will be carried before the law lords. The contention of Ontario appears a reasonable one, and if admitted "provincial rights" will be materially enlarged.

It should not be forgotten that the nomination of city school trustees takes place on Monday. It is to be hoped, notwithstanding the Government through the Legislature have reduced the school board almost to a nonentity, taking the power from the people and centralizing it in themselves, in violation of the principle of local option, that good men will be found willing to offer their services. Because the status of the school boards has been reduced is no reason why the public should relax their interest but rather why they should redouble it.

A speed of ninety-two miles an hour was recently attained by a locomotive on the Reading railroad. The following comparisons may aid to a comprehension of what a tremendous pace this is: At a speed of a mile in thirty-nine seconds a locomotive would cover 138 feet a second. This is faster than Ewing can throw, faster than almost any creature, bird, beast, or fish can move; faster than the wind, unless it rush at its maddest speed; faster than an arrow's flight, and approaches the speed of projectiles of such high velocity that their path through the air is invisible.

The Canadian Government has adopted a recommendation of the Treasury Board removing the export duty on logs found to measure inside the bark eleven inches or less diameter at the butt and irrespective of the length when exported for piling purposes. The Minister of Customs says considerable difficulty has arisen in the past for the want of a proper definition of what constituted a piling log, and the government in order to encourage the exportation of this class of timber had adopted the above regulation. The change would be of great benefit to the different sections of Canada while it would be just as much appreciated in the States.

A SOURCE OF ANNOYANCE.

To the Editor of the Times:

SIR,—I think there should be a law in force prohibiting people from throwing a dead animal into the street. On View street, just above Cook street, at present there is a dead feline, and the odor arising from it, baking under a warm sun, is beyond putting on paper. Cannot the sanitary officer do something in this particular case? RESIDENT.

Children Cry for Pitcher's Castoria.

AYER'S Sugar-Coated Cathartic PILLS.

If the Liver becomes torpid, if the bowels are constipated, or if the stomach fails to perform its functions properly, use Ayer's Pills. They are invaluable.

For some years I was a victim to Liver Complaint, in consequence of which I suffered from General Debility and Indigestion. A few boxes of Ayer's Pills restored me to perfect health.—W. T. Brightney, Henderson, W. Va.

For years I have relied more upon Ayer's Pills than anything else, to

Regulate

my bowels. These Pills are mild in action, and do their work thoroughly. I have used them, with good effect, in cases of Rheumatism and Dyspepsia.—G. F. Miller, Attleborough, Mass.

Ayer's Pills cured me of Stomach and Liver troubles, from which I had suffered for years. I consider them the best pills made, and would not be without them.—Morris Gates, Downsville, N. Y.

I was attacked with Bilious Fever, which was followed by Jaundice, and was so dangerously ill that my friends despaired of my recovery. I commenced taking Ayer's Pills, and soon regained my customary strength and vigor.—John C. Pattison, Lowell, Nebraska.

Last spring I suffered greatly from a troublesome humor on my side. In spite of every effort to cure this eruption, it increased until the flesh became entirely raw. I was troubled, at the same time, with Indigestion, and distressing pains in

The Bowels.

By the advice of a friend I began taking Ayer's Pills. In a short time I was free from pain, my food digested properly, the sores on my body commenced healing, and, in less than one month, I was cured.—Samuel D. White, Atlanta, Ga.

I have long used Ayer's Pills, in my family, and believe them to be the best pills made.—S. C. Darden, Darden, Miss.

My wife and little girl were taken with Dysentery a few days ago, and I at once began giving them small doses of Ayer's Pills, thinking I would call a doctor if the disease became any worse. In a short time the bloody discharges stopped, all pain went away, and health was restored.—Theodore Esling, Richmond, Va.

Ayer's Pills,

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Dealers in Medicine.

ROYAL HOSPITAL PROPERTY

FOR SALE BY TENDER.

PURSUANT TO AN ACT PASSED AT THE last session of the Legislative Assembly of British Columbia, entitled "An Act to authorize and facilitate the sale of the site of the Royal Hospital, with the buildings thereon," the Directors of the Royal Hospital invite sealed tenders for the purchase of so much of the lots known and numbered on the official map of Spring Ridge as Sections 24, 25, 26 and 27 Spring Ridge in the City of Victoria, as is authorized by the said Act to be sold, being the present site of the Royal Hospital, with all improvements thereon, and containing five acres, more or less.

Tenders must be accompanied by a certified bank cheque for one thousand dollars; the balance of purchase money which shall be payable as may be agreed on, shall bear interest at the rate of 5 per cent. per annum, and shall be secured in a manner satisfactory to the Directors.

For Plan of Property and further particulars apply to J. Stuart Yates, Hon. Secretary, to whom the tenders marked "Hospital Site Tender," must be addressed and sent in on or before 12 o'clock noon on the 21st day of June, 1889.

The highest or any tender not necessarily accepted.

PRESIDENT VAN HORNE

Discourses on the Northwest and C. P. R. Matters.

President Van Horne, of the C. P. R., was interviewed in Vancouver by a News reporter on Thursday. In answer to the enquiry "how have you found the feeling of the settlers towards your company?" Mr. Van Horne said "I was gratified more than I can say at the kindly sentiments I have heard expressed wherever I went towards the Canadian Pacific. The hostile feeling of the past two or three years which was created, I need not say how, seems to have almost entirely disappeared, and every one seems to have reached an appreciation of the fact that the Canadian Pacific is the only railway that has a genuine interest in the development and success of the Northwest, and I do not think that this belief will be easily shaken again by the cheap talk of politicians. The Canadian Pacific, within the last three or four years, has had to pass through a most difficult and dangerous stage of its financial existence. It has had to overcome the distrust which was created by its enemies at home and abroad in its ability to sustain itself. Doubt as to the success of the Northwest was the real foundation of this distrust as to the future of the company, for it was apparent to everybody that the Northwest was the very body and soul of the enterprise. Happily all doubts as to the country have disappeared. The ability of the company to take care of itself has been conclusively demonstrated and its credit abroad is rapidly improving, so rapidly that the directors are confident that they will have no difficulty in securing the necessary means for carrying on within the limits of prudence such extensions and improvements as the fullest development of the country may require. It seems to me certain that the Northwest is entering upon a period of great prosperity, and I fully believe that within a year the movement towards the Northwest will come with a rush like that towards Kansas in 1879, and that such scenes as that at the Winnipeg station on Friday, when four or five heavy passenger trains arrived from the east in quick succession, will be an every day occurrence."

The Tables Turned.

Chadsey Bros., of Chilliwhack, lost a number of sheep, which were killed by a cougar. An Indian who went on the mountain to hunt the cougar, found him devouring a sheep that he had packed up the mountain. The cougar attacked the Indian as soon as he discharged his gun, and had it not been for his dogs would have made hash of him.

After Thirty Years.

Thirty years ago in Nova Scotia George Campbell, now Capt. Campbell, courted and seduced Esther Fletcher and a child was born. Campbell, who is now sixty, married last fall a widow lady, and the coming trial in the Supreme Court of Esther Fletcher's suit against him for $30,000 damage, is creating a great sensation there. It was generally supposed that Campbell, if ever he married, would marry Miss Fletcher, of whose child he acknowledged being the father.

Sad and Strange.

A sad drowning accident occurred at Chilliwhack on Sunday last. A little girl named Eliza Gibson, daughter of Mr. Gibson, a well known and highly respected farmer, was playing with a number of children on the edge of Hope slough when she accidentally slipped off a log into the water and was drowned. Her playmates made unavailing efforts to rescue her, and an alarm was given, but help was useless when it arrived. At almost the same spot 12 years ago, on the day Eliza was born, her brother was drowned under similar circumstances.

Ainsworth, B. C.

The new town of Ainsworth, Kootenay, which is every day springing into greater prominence, is situated on the west side Kootenay Lake, directly opposite Dr. Hendry's mine, the Blue Bell. It has hitherto been known as the "Hot Springs." It is the natural shipping point for all the mines of the district and is beautifully located on a gently rising flat. Already the busy sound of the axe and hammer can be heard long before the town is in site. It is the intention of the owner of the sight to offer choice lots at auction about the 1st of July and opportunities will be given through real estate houses to purchase soon.

Shot by a Sentry.

A man is believed to have been shot and killed at Seattle on Wednesday night under the following circumstances: About 10 o'clock, a sentry back of the old Safe Deposit building, saw a man approaching him on his hands and knees. When a halt was ordered the man heeded not, but crawled stealthily on, and so the guard fired. Then the man with a cry, jumped to his feet and rushed down to the water and jumped into the bay. The authorities were aroused, and a vigorous search was made for the marauder, but he could not be found. The guard, however, declares positively that he shot the fellow, and that he must have drowned when he jumped into the water.

A Large Hotel.

The largest hotel in London is the Metropole, and the fact that 1000 persons were accommodated there during the jubilee celebration affords the continental papers an opportunity to express unbounded astonishment. Upwards of 6,000,000 bricks were used in its construction, with 11,000 tons of iron-work, and 70 miles of electric light and bell wire have been laid. The building is ten stories high; as many as 1000 people have dinner in one day, 500 people can be seated at separate tables, a staff of a dozen clerks are needed to attend to the book-keeping, and 35 to 40 men are always busy in the kitchen, from which region over 300,000 pounds of meat, 44,000 of butter, 460,000 eggs, and 75,000 quarts of milk are sent per annum, while the water used approaches 20,000,000 gallons a year.

The Smell Question.

The versatile correspondent of the Vancouver *News* in New Westminster writes on the above subject with as great fluency as if he were a resident of Victoria. He says: Who is the Health Inspector? Where is the Health Inspector? What is the Health Inspector? Which is the Health Inspector? When comes the Health Inspector? Are questions being asked pointedly at the present time by people holding their noses with one hand and brandishing a club or brickbat with the other. The fact of the matter is that one has not to go even into the backyard to discover how aggressive a simple, little, unemptied swill barrel can become when it gets thoroughly wound up by the sun, and fairly bums with fetid energy. Pity that the good old Saxon word "stink" is not looked upon with favor in modern description; it is the only word applicable to the case. "Phew! to think of it," let alone dream of it. Luckily these pestiferous exhalations from the neglected back yard ascend into the broad, clear air of the surrounding hills, and are disseminated and disseminated and dispersed before harm is done. Under ordinary circumstances fever would surely be engendered.

The Baroness Bourdett Coutts recently gave a dinner to which she invited a number of more or less distinguished people, including the Prince of Wales and Boulanger. She neglected to state in the invitations who would be present, and, as a consequence, when some of the guests learned upon arrival of the French General's presence they went home in a huff. Even the noble lady whom the Baroness had chosen to go to dinner with Boulanger left the house without carrying out the programme. The Prince, however, paid considerable attention to the French exile and apparently enjoyed his chat with him to the utmost.

Arrived.

Bass XXXX Ale (Lamb's Wool) at the Occidental Hotel bar.

CITY AND PROVINCE.

—Drivers of garbage carts are apt to have the dumps.

For Constipation, Sick or Bilious Headache, use Dr. Pierce's Pellets or Anti-bilious Granules. Purely vegetable. One a dose. *

—We please often, more by our defects than by our good qualities.

—Ill-fitting boots and shoes cause corns. Holloway's Corn Cure is the article to use. Get a bottle at once and cure your corns. *

—The first and worst of all frauds is to cheat one's self. All sin is easy after that.

—If your children are troubled with worms, give them Mother Graves' Worm Exterminator; safe, sure, and effectual. Try it, and mark the improvement in your child. *

—Immodest words admit of no defence, for want of decency is want of sense.

—O. E. Comstock, Caledonia, Minn., writes:—"I was suffering the most excruciating pain from inflammatory rheumatism. One application of *Dr. Thomas' Eclectric Oil* afforded almost instant relief, and two bottles effected a permanent cure." *

—When our vices quit us, we flatter ourselves with the belief that it is we who quit them.

—What Toronto's well-known Good Samaritan says: "I have been troubled with Dyspepsia and Liver Complaint for over 20 years, and have tried many remedies, but never found an article that has done me as much good as Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure." CLARA E. PORTER. *

—Between public opinion and the doctors who chopped Bishop, there is war to the knife.

—Among the pains and aches cured with marvellous rapidity by *Dr. Thomas' Eclectric Oil*, is ear-ache. The young are especially subject to it, and the desirability of this Oil as a family remedy is enhanced by the fact that it is admirably adapted not only to the above ailment, but also to the hurts, disorders of the bowels, and affections of the throat, to which the young are especially subject. *

—A lay member allowed to talk is strictly an amateur preacher.

—There is a wide difference between medicines which affect merely the symptoms of disease and those which affect its cause. The first are useful as palliatives, the second, if of genuine efficacy, produce a radical cure. To the latter class belongs Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. Thoroughness of operation is its special attribute in all cases of Billiousness, Costiveness, Indigestion, Kidney Complaints and Female Weakness. *

—Lose not thine own for want of asking for it; 'twill get thee no thanks.

"His pills as thick as hand-grenades flew
And where they fell as certainly slew."

was said of one of those ignorant doctors in the early times, who might well have been called the aide-de-camp of death. The sufferer from scrofula, with sores as bad as Job's, need not now curse the day he was born, for Dr. Pierce's Golden Medical Discovery will restore health and beauty, appetite and strength. Especially has it manifested its potency in curing salt rheum, tetters, boils, carbuncles, sore eyes, scrofulus sores and swellings, hip joint diseases, white swellings, goitre or thick neck, or enlaged glands. w s

—To be "as mad as a March hare" is a common enough expression. In March a hair finds difficulty in staying on a bald head.

Children Cry for Pitcher's Castoria.

John L. Sullivan says he has made nearly half a million dollars in ten years, and that in eight months he made $125,000. Athletes of the very first rank earn a great deal of money in these days of the adoration of muscle, but it is to be borne in mind that the period of earning power is short; a sculler, a boxer or a baseball player is old at 35. Sullivan says that he has squandered nearly all his earnings.

The Mayor's Remuneration By-Law

Whereas under and by virtue of the Municipal Act, 1889, it is enacted that the Council of every Municipality may from time to time make, alter or repeal By-Laws for (inter alia) paying the Mayor out of the annual revenue a sum of money not exceeding $2000;

Be it therefore enacted by the Municipal Council of the Corporation of the City of Victoria as follows:—

1. There shall be paid to the Mayor for the time being of the said City of Victoria out of the annual revenue of the said City the sum of two thousand dollars ($2000.00).

2. This By-Law may be cited for all purposes as the "Mayor's Remuneration By-Law, 1889."

Passed the Municipal Council, the 23rd day of May, A. D. 1889.

Reconsidered and finally passed the Council, this 12th day of June, A. D. 1889.

[L. S.] JOHN GRANT, Mayor.

COMPANY (LIMITED),

Begs to inform the citizens of Victoria and public generally, that all orders for Castings, Boilers or other work in their line, will not only meet with prompt attention, but that in addition to reasonable rates (including free delivery in Victoria), they are also prepared to guarantee their work as equal, if not superior, to any to be had elsewhere in the Province. Having appointed ANDREW GRAY, Esq., (Victoria Machinery Depot) as their Agent in Victoria, with full power and authority to quote prices, receive orders and enter into contracts in their name. All parties desirous of further information are respectfully requested to apply to him on the subject.

nov20-6m R. P. COOKE, President.

THE BRITISH COLUMBIA FIRE INSURANCE COMPANY.

TAKES RISKS ON THE CASH OR MUTUAL PLANS.

As this is a Home Company, organized by British Columbians for the two-fold purpose of giving cheap insurance and keeping the money in this Province, it commends itself to the support of every insurer desiring the prosperity of this country. In Ontario, the system of insurance, which is similar to that adopted by this Company, has been in highly successful operation for the past fifty years, and it has proved to be a great advantage to every insurer in it, by reducing the cost of insurance, and it is estimated that now three-fourths of the insurance effected in Ontario is carried by mutual companies.

Victoria B. C.

SEALED TENDERS addressed to the undersigned, and endorsed "Tenders for Post Office, Vancouver, B. C." will be received at this office until Saturday, 22nd June, 1889, for the several works required in the erection of Post Office, &c., Vancouver, B. C.

Specifications can be seen at the Department of Public Works, Ottawa, and at the office of the Collector of Customs, Vancouver, on and after Saturday, 1st June, 1889, and tenders will not be considered unless made on form supplied and signed with actual signatures of tenderers.

An accepted bank cheque payable to the order of the Minister of Public Works, equal to five per cent. of amount of tender, must accompany each tender. This cheque will be forfeited if the party decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order
A. GOBEIL, Secretary.
Department of Public Works, Ottawa, 15th May, 1889. my30-td

Estate of John Cuthbert, deceased.

ALL DEBTORS TO THE ESTATE ARE requested to pay their accounts, and all creditors of the estate to present their claims forthwith, to Mrs. Cuthbert, the executrix of the will of the deceased, or to J. ROLAND HETT, [illegible]
Victoria, January 22nd 1889.

LOCAL PARAGRAPHS.

News of the City and Province Briefly Told.

—Ice Cream at Steitz's.

—To-morrow will be Trinity Sunday.

—Thursday next will be Ascension Day.

—Zylonite collars and cuffs at Daley's 111 Government street.

—Bush fires are prevalent on the summit of the E. & N. railway.

—"Hose patches," a sure cure for leaky garden hose, at McLennan & McFeely's.

—A carload of stoves to select from at McLennan & McFeely's, opposite the "Poodle Dog."

—Ice cream delivered to all parts of the city. New England Bakery. Telephone call 161.

—The erection of a Catholic church has been commenced at Calgary which will cost $50,000.

—"Lignomur," the latest and most artistic wall decoration, at John Weiler's 51 to 55 Fort street.

—An officer of the fleet states that the Champion met a heavy gale three days ago and that a boiler burst.

"Wood you?" said the coal dealer, cutely.
"I wouldn't," she answered quite grim;
And then, as he fired up slightly,
She gave the coal shoulder to him.

—While at New Westminster on Thursday, Sir Leonard Tilley and party were the guests of W. Norman Bole, Esq., M. P. P.

—June issue, British Columbian Magazine, is at bookstores and Daily's Bazaar. Everyone should buy this handsome number. 1mo.

—Look out for the advertisement of sale of lots in the town of Seattle, at Mission Bridge, B. C., on June 15th, by F. G. Richards, Jr. *td

—F. G. Richards, Jr., reports a number of sales of suburban property yesterday and to-day; also the sale of several Sumas, W. T., lots.

—Special collections in aid of the Seattle sufferers will be taken up in the First Presbyterian church to-morrow morning and evening.

—Visitors before leaving for home should have their photos taken at Hall & Lowe's, Government street, where they are sure to get the best.

—The press of the province, strange as it may appear, depends on this city for their supply of fish stories. We have evidently a monopoly of "queer fish."

—Crops in the valley of the Fraser are said to be good with the exception of apples, which will be short. There is no high water this year and no mosquitos.

—Mr. James Auld has been awarded the contract for the construction of a residence for Mr. Wm. Munsie on Johnson street, and one for Mr. Fred Carne, jun., on Yates street.

—Personal. If that lady will again call at the Lansdowne House, Yates street, she will find the *Hat* required, as Partridge has just received six dozen direct from New York. *2w

—The remains of the late Walter Unwin will be interred Sunday afternoon. The funeral will take place from the parent's residence, 247 Johnson street.

—A carload of Antique Oak Bedroom furniture, latest designs, handsomely carved, also Walnut Roll Curtain and other office desks, just received by John Weiler 51 to 55 Fort street.

—The Canadian Pacific Railway company's earnings for the week ending June 7th were $271,000; for the same week last year $257,000. the above does not include earnings on the Southeastern railway.

—A curious shipment of articles to Portland will leave this city in a few days. It comprises two dozen gunny-sacks of old rags, coats, pants, ladies' underwear, etc., consigned to John Thompson, Portland.

—The ship Riversdale, Capt. Farr, arrived in Royal Roads at 11 o'clock this morning with a cargo of 1,250,000 feet of lumber from Port Moody for Port Pirrie, Australia. Pilot McAllister brought the vessel from Port Moody.

—Tenders for the erection of a two-storey brick building with basement, on the northwest corner of Yates and Douglas streets, were all sent in to the architect, Mr. John Teague. The figures are in the neighborhood of $17,000.

—Mr. J. Thompson, Nanaimo, who was severely injured in the back by falling from a building last fall, has received from the Odd Fellows lodge in New Zealand, of which he is a member, the sum of £18, being payment for eighteen weeks sickness.

—Mr. Haslam's nomination papers were signed at Nanaimo yesterday by J. Pawson, J. P., as proposer, E. Quennell, as seconder, and Messrs. T. W. Glaholm, John Hilbert and Archibald Dick, as assenting to the nomination. Messrs. J. H. Pleace, George Nixon, George Walker and H. Peterson, signed it as electors.

—Canadian Pacific shares remain strong at the advanced price of 56 in New York and 58 in London. Northern Pacific shares are dropping at 29. The election of president takes place on Monday and Mr. Villard was to address a meeting of Merchants in Portland, Or., last night in anticipation of the election.

—The officials at the Provincial gaol claim that they are not responsible for the escape of the Chinese prisoner who arrived on the Sardonyx. The gaolers wish it to be distinctly understood that the institution is open for the receipt of prisoners from 12 o'clock on December 31st to 12 o'clock on the 31st of December.

—Mr. C. E. Riggins, Beamsville, writes, "A customer who tried a bottle of Northrop & Lyman's Vegetable Discovery says it is the best thing he ever used; to quote his own words, 'It just seemed to touch the spot affected.' About a year ago he had an attack of bilious fever, and was afraid he was in for another, when I recommended this valuable medicine with such happy results."

The Gospel Tent.

The meetings in the Gospel Tent are well attended. The subject to-night is: "The First Angel's Message." Meeting on Sunday at 3 p. m. Subject: "The Second Angel's Message." Sunday, 8 p. m., the subject will be "The Millenium."

School Picnic.

The pupils of the first and second divisions of the Girls School, accompanied by nearly all the city teachers, spent a delightful day to-day at Cordova Bay. The young ladies who had charge of the affair spared no pains in making it as enjoyable as possible for all.

The Winners.

The thirty-sixth drawing of the Vancouver Island Building Society, held in Harmony Hall last night, entitled the holders of shares 58A and E, held by Arthur McDonald, of Vancouver, and Joshua Holland, contractor, of this city, to an appropriation of $1000 each.

Their Night Out.

The officers and employees of the Esquimalt & Nanaimo Railway enjoyed an outing last night up the Arm. The Queen City band was present and performed selections both going up and returning. The attendance was not exactly what was expected, owing, probably, to the chilliness of the evening.

Assessment Roll.

The assistant assessors have completed the valuation of the real estate and property in Johnson street and Yates street wards. The figures for the two wards approximate $9,000,000. James Bay ward will shortly be completed, when the exact valuation of the entire city will be placed before the public.

Survey of Timber Lands.

A party of surveyors will leave here for Comox on Monday for the purpose of commencing a survey of the timber lands purchased by the Victoria Lumber Manufacturing Company, from the E. & N. Railway company. The extent of the purchase it will be remembered was 100,000 acres with the option of 150,000 and to be selected anywhere.

Postponed.

The executive of the Provincial Teachers Institute have decided to postpone the holding of the annual meeting until the Christmas vacation.

Dr. Childs Pile Ointment.

Instantly relieves and permanently cures piles, pruritus, and all hot and itching sores and eruptions. Price, $1, of druggists. d&w

Contract Signed.

The contract for the Johnson street sewer was signed to-day. Mr. H. H. McDonald, the contractor, will begin work as soon as the street grades are finally settled by the City Surveyor. A start will be made at the foot of Johnson street when work begins and, to remark parenthetically, it should be commenced as soon as possible.

Elopement.

James Maitland and Sarah Jane Bolton, of Nanaimo, says the *Courier*, have eloped. The young lady went away quite cheerfully singing "Tommy Make Room for your Uncle," ostensibly as a parting shot at her late male friends. The interesting part of the elopement is that the couple occupy the relations towards each other of uncle and niece.

Sacred Concert.

The Sacred Concert Band, commencing at 3 o'clock to-morrow afternoon, will perform the following selections in the Park under the direction of Professor Pferdner:

Grand Processional March	Lee
Scena and Aria from Trovatore	Verdi
Sanctus from 12th Mass	Mozart
Medley, Irish Melodies	Bennet
The Bride	Pettee
Potpourri, Moody and Sankey	De Lacy
Glee and Prayer	Stevens

Naval.

H. M. S. Champion, Capt. Adolphus F. St. Clair, arrived in Esquimalt at noon to-day, nearly nine days from San Francisco. As the vessel steamed into the harbor she saluted the Admiral with the regulation thirteen guns which was acknowledged by the Swiftsure with seven guns.

Her Majesty's fleet now lying in Esquimalt will leave for Vancouver on Tuesday. On Monday the vessels will take in stores and otherwise prepare for their northern cruise.

Tascott at Vancouver.

The Vancouver police, it is learned, actually had the real Tascott in their clutches. A man corresponding exactly to the description of the murderer of millionaire Snell, was staying at the Gold House, and two Chicago detectives, who were at Vancouver, failed to locate him. The appearance of the man came so close to the description given of him that Chief of Police Stewart had him taken to the station on suspicion, but the appearance of his teeth not corresponding, he was allowed to go. The police are naturally kicking themselves.

New Brick.

Work on the brick buildings going up in the business portion of the city is proceeding apace. Drake & Jackson's new brick at the corner of Langley and Bastion is well under way. Brackman & Ker's new brick is a storey above the sidewalk. The large brick at the corner of Yates and Broad is rising rapidly. The two-storey brick, corner Douglas and Pandora is nearly completed. Some delay has occurred on the new St. Andrew's church, but notwithstanding, the contractors for the brick-work, Messrs. Russell, Brown & Co., are getting the walls of this magnificent building well up.

Board of Aldermen.

A special meeting of the Board was held Friday evening in the Mayor's office. Present: His Worship the Mayor, Ald. Harrison, Vigelius, Wilson, Harris, McKillican, Goodacre and Kelly.

Ald. Harrison's $45,000 loan by-law passed a final reading. The clerk was instructed to advertise for tenders for debentures, the time for receiving same to expire on Friday next. The finance committee was instructed to take the necessary steps in regard to the printing of debentures.

A by-law fixing the remuneration of the Assistant Assessors at $1 for each entire hour, was read a second time.

The special meeting was called to deal with the by-laws and no further business was transacted.

Marriage Bells.

At the Methodist parsonage Friday evening, J. McLean of Vancouver and Miss Lizzie Richardson of Nanaimo were united in marriage by the Rev. J. E. Starr. Miss Botting, a cousin of the bride, acted as bridesmaid, while Mr. Jas. Abrams of Nanaimo supported the groom. The newly married couple are at present at the Driard.

At Christ Church Cathedral, on Thursday evening, the nuptial ceremony of Henry John Cresswell, architect, this city, and Helen Ann, eldest daughter of the late Rev. Jas. Taylor, of Cheltenham, Eng., was solemnized, the Rev. Arthur Beanlands officiating.

Kindest wishes go forth from THE TIMES for future dreams of happiness for the two happy couples.

Rich Specimens.

The reporter stepped into John Kurtz's museum yesterday to see some remarkable specimens of silver ores from the No. 1 mine on Kootenay Lake. They present a very attractive appearance. Fine wire silver can be seen throughout the entire lot, sometimes resembling clusters of moss, and in others evidently pressed through flat crevices in the rock into thin layers of the finest filigree work. The ore itself is a black sulphuret, which carries from 100 ounces of silver up to 500 ounces per ton. It is taken from a vein which varies from four to eight feet in thickness, and is what may be termed a "blanket vein," having a pitch into the hill of about thirty degrees. The development work on this mine only began last December, but already a large extent of ore has been exposed. A tunnel has been run 300 feet, and crosscuts and an upraise to the ore body carries off the waste rock and drains the vein thoroughly. Ore houses and sorting tables have been erected and at present about sixty sacks of ore are being shipped daily. This all finds its way to the Northern Pacific Railway, and the Helena and Livingston smelting works in Montana. The ore buyer of the company has recently visited the Hot Springs camp, and made arrangements to advance money upon all lead and silver ores which may be delivered upon the banks of the Lake.

Quarterly Meeting.

The members of the Young Men's Christian Association held their quarterly meeting at the rooms on Broad street last evening. The meeting was opened with a praise service, followed by the reading of the Scripture by Rev. D. Fraser. The board of directors made their report of the business affairs of the Association and the reception, religious work and invitation committees reported on the general work. The Rev. J. W. Wadman gave a forcible address on the needs of the day and the reasons why the Christian young men should be up and doing. Mr. C. W. Beers, general secretary of the Portland Association, was the next speaker. He has just returned from the International Convention and spoke of that grand gathering where there were representatives from nearly every country in the world. He also referred to the rapid increase of this work on the continent. The president then introduced Mr. James Baylis, of Montreal, who is one of the original founders of the first association organized on this continent at Montreal in Nov. 1851. He spoke of the very small beginning of the work and how it had grown and how much good it had done, and how it was destined to go on and on. The presence of these last two speakers made the meeting of the utmost interest to every one present, and all went away having thoroughly enjoyed the evening. After the Rev. M. L. Rugg had pronounced the benediction most of those present availed themselves of the opportunity to inspect the plans for the new rooms.

THE UNION MINE.

White Men Say They Can Hardly Make a Living.

Several miners who arrived at Nanaimo from Comox have informed the *Courier* that it is impossible under the present manner of running the mine for a white man to make a living. They informed us that the seam of coal is only two feet thick, and that to get at it they have to take down two feet of dirt, which has to be all loaded and run out of the slope. The present price paid is 90 cents a ton with no yardage for driving tunnels. The mine is worked on the long wall system, and coal is very difficult to obtain. Formerly men were paid by the yard, and they could make fair wages, but now "the management" has ordered that the coal be worked at the rate of 90 cents a ton, and that if white men cannot do it at the price Chinamen will. They also stated that four Italians, good miners, worked four days, and after paying for their powder and oil only succeeded in clearing 25 cents.

THE TRAMWAY.

Contracts Awarded—Cars to be Moving by November 1st.

The directors of the Tramway Company have awarded contracts for constructing the line and installing the electrical plant. The award was made this morning. Mr. T. W. Peterson, of the firm of Bell, Larkin & Paterson, who built two sections of the E. & N. railway, have secured the track construction, which is to be of heavy girders, rails and ties, and will be completed on or about November 1st. Mr. F. H. Osgood, president of the electric road at Seattle, has secured the contracts for electrical construction. The system selected is the Thomson-Houston, which has achieved a marked success at Seattle and elsewhere. The board has met almost daily for the past ten days and only arrived at the conclusion to adopt the T. & H. system after the most careful examination and earnest deliberation. The cars will be ordered from St. Louis, Mo., or St. Catherines, Ont., tenders having been asked from manufacturers at both points. Everything connected with the tramways will be of the latest and most approved pattern, and Victoria, in the matter of street cars at least, will then be abreast of any other city on the continent. We wish the plucky company who have taken this matter in hand so earnestly the fullest measure of success.

STEAMBOAT INSPECTION.

The New Regulations Affecting Foreign Hulls and Boilers.

Steamers engaged in Canadian trade having foreign registers have not hitherto undergone the inspection to which Canadian registered vessels have been subjected. The government has recently amended the regulations governing the inspection of boilers and hulls. Hereafter marine boilers constructed in Great Britain and Ireland, according to the rules of the British Board of Trade or British Lloyd's, shall be exempt from the Canadian rules and regulations for twelve months from the date of the certificate of inspection, upon production of satisfactory evidence that they have been so constructed.

Steamers which have been in Canada for twelve months with boilers constructed in the United Kingdom, and which produce evidence of having been so constructed, shall be inspected by a Canadian inspector of machinery and boilers according to the rules and regulations which at present are in force in the United Kingdom, and that such vessels shall be inspected if deemed necessary by a Canadian inspector of hulls according to the rules and regulations which exist in Canada regarding the inspection of hulls of steamboats.

Under this order steamships like the collier Wellington, which has a British charter, must be inspected. There are several vessels like the Wellington sailing under foreign registers, which have never been inspected by a Canadian inspector, and to these the new regulations will specially apply.

DESERTED HIS WIFE.

Touching Scene at the Nanaimo Railway Station.

Friday's train from Nanaimo brought to this city one of the most contemptible creatures on the face of the earth, in the shape of a man who wilfully deserted his wife and six months old babe. The *Courier* gives the following particulars: Officer O'Connell received a telegram from Wellington to the effect that a miner named T. J. Morris intended to desert his young wife and child and would pass through this city on the morning train. Mrs. Morris and her infant child arrived by the same train as her husband. Constable O'Connell had apprised Mayor Bate of the state of affairs and the two of them were on the platform to meet the train as it came in. They held a long conversation with the faithless husband, who persisted in his intention of leaving the country, and it was only with great difficulty that they persuaded him to agree to give his wife $20 to help maintain herself. While counting out the money Officer O'Connell saw a $5 bill and a $50 stuck together, which the absconder had not noticed, and the policeman took them for the benefit of the man's wife, in addition to the balance of the money promised. Morris was then allowed to continue his journey, but a little poorer in pocket than he dreamt of when starting. Mrs. Morris was much pleased to receive so much money in excess of what she had been led to expect she would get. Many persons said it would be worth while travelling down to Victoria just to see the surprise of Morris when he discovered he was $50 short in his traveling funds, as being a very reckless man he might be liable to make things move. When Morris left he informed the constable that he had a sister in town who owed him $70 for her passage out and that his wife could get the money, which his sister would be able to pay at the rate of $10 per month, and when he arrived at his destination (South America) he would send for his wife and child, but the chances are he will forget to do so, and all we can say is "good riddance to bad rubbish."

For the Warm Weather.

A number of family, hotel, and counter Refrigerators just received at McLennan & McFeely's, 70 Yates street. *d

Cutlery.

M. & H. A. Fox have just received direct from Sheffield a large stock of table and pocket cutlery, scissors, etc. Shaving outfits a specialty. Call and examine at 78 Government street.

Token of Esteem.

A monument to mark the last resting place of James Adams Vasey, late surgeon of H. M. S. Amphion, was to-day erected in the naval cemetery, Esquimalt. It is plain in design and was erected by his messmates as a token of their esteem.

Agricultural Picnic.

A picnic will be held at the Agricultural Grounds, Saanich, on Wednesday, 19th instant. Haynes' band will provide music for dancing during the afternoon and night, and other attractions will be provided. A pleasant time may be looked for.

Another Dyke Wanted.

A correspondent of the Westminster *Columbian* deals with the same subject as that taken up in correspondence appearing in THE TIMES yesterday, viz., Sumas lands. The correspondent says: Sumas settlement comprises 20,000 acres of land, held by purchase and pre-emption, which cannot be surpassed for richness of soil. 16,000 out of 20,000 is prairie, ready for the plow, if it were reclaimed from the overflow caused by the June freshets of the Fraser river. The valley is nearly surrounded by mountains. The distance to the dyke on the front along the Fraser river is only a mile and three quarters. Only extreme high water damages the crops. The owners of the land offer to pay $100,000 to any company that will successfully dyke the land.

For the North.

The Sardonyx sailed for the north this afternoon with a very large freight. Mr. T. S. Gore and a party of five go up to Queen Charlotte Island on a surveying expedition. The passengers going north are: J. D. E. B. Green, Mr. Lundberg, T. S. Gore, Mr. Becar, Arundel A. J. McLellan, C. Nicholson and R. Sturdy.

Improvements.

Tenders are invited by John Teague, architect, for a two-story brick building at the southwest corner of Broad street and Trounce alley. The old wooden rookeries on the ground are unoccupied at present and will be torn down to make room for one more substantial building. The sound of hammers and trowels can be heard on nearly every street in the city. Work will be commenced in a few days on the new block facing Douglas and Yates streets.

CHURCH NOTICES.

GORGE ROAD METHODIST—Rev. Mr. Beer will preach his first sermons to this congregation to-morrow, morning and evening.

The Corporation do not bind themselves to accept any tender.

By order,
WELLINGTON J. DOWLER,
C. M. C.

City Hall, June 15th, 1889. je15-tf

A BY-LAW

To provide for the payment of Assistant Assessors.

WHEREAS ON THE 17TH DAY OF APRIL, A. D. 1889, Wm. Dalby, Wm. W. Northcote and E. Dickinson were elected and appointed to assist the Assessor of the City of Victoria in his duties;

Be it therefore enacted by the Council of the Corporation of the City of Victoria as follows.

1. Each of them, the said Wm. Dalby, William W. Northcote and E. Dickinson, shall be paid for his services as such Assistant Assessor at the rate of $1 for every entire hour during which he was actually engaged in his duties as an Assistant Assessor as aforesaid.

2. This By-Law may be cited as "The Assistant Assessors By-Law, 1889."

Passed the Municipal Council the 15th day of May, A. D. 1889. Reconsidered and finally passed the Council this 14th day of June, A. D. 1889.

(L.S.) JOHN GRANT, Mayor.
WELLINGTON J. DOWLER, C. M. C. je15-tf

CHILCOTIN.
FINE RANCH
FOR SALE
AT A BARGAIN.
PROVIS ESTATE.
We are instructed by the Administrator of the above estate to offer for private sale
THE FINE RANCH
Consisting of 320 acres of
MEADOW LAND,
Situated about five miles above Drummond & Beaumont's ranch, on Riskey Creek, on the wagon road from Soda Creek.
There are 30 head of cattle, one fine span of horses, new wagon, sleigh, plough, carpenter's tools and necessary farming implements.
A good never-failing stream of water is running in front of dwelling house. There is a water privilege, also to one-third of Riskey Creek for irrigation purposes, also the right of purchase of 160 acres of meadow land about 10 miles from said ranch, and the right to cut hay on a meadow about a mile distant.
The cattle range is one of the best in Chilcotin, and there is a large stack of hay and one of straw of last year's crop.
For terms and further particulars apply to
H. F. HEISTERMAN & CO.,
Land Agents,
8 Bastion Square.
je14-d&w-1m
